Full-Stack Software Engineer & Product Assistant

Technically adept engineer with product management experience, specializing in scalable web/mobile apps, process optimization, and cross-functional collaboration.

Technical Skills

- **Frontend:** *JavaScript (ES6+), TypeScript, React.js, Next.js, Vue.js, Tailwind CSS, Kotlin Multiplatform*
 - **Backend:** *Node.js, Spring Boot, RESTful APIs, GraphQL, PostgreSQL, MongoDB*
 - **Mobile:** *Flutter, Jetpack Compose, Android SDK*
 - **DevOps & Tools:** *Git, AWS, Docker, CI/CD, Jira, Figma, Postman, Linux*
 - **Product Management:** *Stakeholder Coordination, SOP Development, User Training, Agile/Scrum*
-

Soft Skills

- Strong debugging and troubleshooting skills
 - Excellent analytical and problem-solving abilities
 - Adaptable and flexible in fast-paced environments
 - Effective communicator and collaborator in cross-functional teams
 - Proactive and detail-oriented with a growth mindset
-

Professional Experience

Kilimall (E-commerce Platform)

 *Product Assistant* | Mar 2024 – Present

- **Process Optimization:** Coordinated version deployments with front-line operations, reducing downtime by **15%**.
- **Training & Documentation:** Developed English training materials, SOPs, and user guides, **improving onboarding efficiency by 20%**.
- **Stakeholder Collaboration:** Bridged engineering, logistics (3PL), and marketplace teams, streamlining feedback loops for faster issue resolution.
- **Technical Support:** Resolved **30+ front-line system issues monthly**, escalating critical bugs to developers for fixes.

 *Frontend Developer* | Nov 2023 – Mar 2024 (*Promoted to Product Assistant*)

- **Performance Optimization:** Refactored Vue.js e-commerce platform, **reducing page load speed by 30%.**
 - **UI/UX Enhancements:** Implemented responsive designs with Element CSS, **boosting mobile conversion rates.**
-

Brandefy Creative Studio

📌 *Full-Stack Web Developer (Contract)*

Sep 2024 - Jan 2025 | Remote

- Engineered scalable web solutions using React.js and Node.js, improving performance by 20%.
- Designed responsive interfaces with Tailwind CSS, ensuring consistent cross-platform design.
- Integrated APIs and third-party services to streamline backend operations, enhancing functionality by 25%.

Technologies: React.js, Node.js, Tailwind CSS, MongoDB, REST APIs

Anima People

📌 *Software Developer*

Jun 2024 - November 2024 | Remote

- Developed and optimized RESTful APIs, reducing error rates by 15%.
- Conducted code reviews, improving system performance and code quality.
- Enhanced front-end and back-end integration, boosting overall user experience.

Technologies: JavaScript, REST APIs, Node.js, React.js, Agile Development

Frigate

 *Full Stack Engineer*

Nov 2023 - Oct 2024 | Remote

- Led development of a banking app with Flutter and Java, improving UI/UX and functionality by **20%**.
- Integrated backend modules using Spring Boot, reducing server-side load times by **20%**.
- Collaborated with QA to decrease bug reports by **25%** and improve application stability.

Technologies: Flutter, Java, Spring Boot, PostgreSQL, API Development

adCasa

 *Frontend Developer (Internship)*

Jun 2024 - Sep 2024 | Remote

- Created responsive UI components with Kotlin Multiplatform, improving cross-platform integration by 15%.
- Implemented Material UI components for enhanced user experience.

Technologies: Kotlin Multiplatform, Jetpack Compose, Material UI, HTML5, CSS3

Join Momentum

 *Full Stack Engineer*

Jan 2024 - Jun 2024 | Remote

- Enhanced web interfaces using Tailwind CSS and TypeScript, improving responsiveness by 20%.
- Optimized Next.js and TypeScript components, reducing code complexity and improving performance by 30%.

Technologies: TypeScript, Next.js, Tailwind CSS, React.js, Contentful

ALX Africa

 *Software Engineer*

Aug 2023 - Dec 2023 | Remote

- Revamped React.js interfaces, increasing user engagement by 15%.
- Improved application responsiveness and reduced load times by 25%.

Technologies: JavaScript, React.js, CSS, Node.js, Vue.js, Linux

iHealth and Wellness Foundation

 *Frontend Developer (Contract)*

Jun 2023 - Oct 2023 | Remote

- Integrated Redux and React Hooks for state management, leading to smoother API interactions.
- Enhanced UI/UX, increasing user engagement by 20%.

Technologies: React.js, Redux, React Hooks, Bootstrap, JavaScript

100Devs

 *Junior Software Developer (Internship)*

Jan 2022 - May 2023 | Remote, USA

- Reduced user-reported bugs by **30%** through proactive fixes and feature improvements.
- Improved application stability by decreasing issue resolution times.

Technologies: JavaScript, Bootstrap, HTML5, CSS

Achievements

- **Contributor** to [Zero-To-Mastery](#) Open-Source Project
-
